## PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building interactive, responsive, and user-friendly web applications. Adept at turning complex design concepts into seamless digital experiences. Skilled in modern frontend technologies with a strong focus on performance, clean component architecture, and continuous learning.

## WORK EXPERIENCE

**Frontend Developer** | *Dirac Systems (a subsidiary of Fawry)* Cairo, Egypt | Jun 2022 – Present

- Led the frontend development of a large-scale Enterprise Resource Planning (ERP) system, successfully delivering the HR (Fawry Payday) and Accounting modules using React, Redux, and Material UI.
- Played a pivotal role in implementing and maintaining a new Point of Sale (POS) system (Lychee POS).
- Enhanced ERP functionality by developing new features and resolving bugs across multiple modules, including optimizing data grid performance and timeline navigation using Kendo UI, significantly improving data rendering speeds.
- Addressed and resolved frontend security concerns, implementing secure data handling to mitigate risks such as SQL injection.
- Delivered production-ready websites, mobile applications, and landing pages, guiding projects from initial concept through to successful deployment.
- Championed a mobile-first strategy across all web and mobile products, ensuring 100% responsive and cross-browser compatible layouts.

## PROJECTS

- **Fawry Payday** — An HR automation platform that digitizes and streamlines payroll and core HR workflows, improving operational efficiency for businesses. [Live](#)
- **Lychee POS** — A modern, responsive Point-of-Sale system enabling fast sales processing, transaction tracking, and inventory management through a clean, user-friendly interface. [Live](#)
- **Personal Project (Live) | Lamha** (Reactjs, Zustand, Tailwind CSS, NodeJS, ExpressJS, MongoDB) — A smart digital platform connecting businesses, merchants, and customers. Order anything, book trips, or request any service — all delivered seamlessly to your doorstep. Easy, fast, and reliable. [Live](#)
- **E-Commerce Amazon Clone** (Reactjs, Node, Express, Mongo, Stripe, firebase) — Responsive full-stack site for displaying and marketing products, with Amazon-like features such as payments and order history. [Live](#) | [Code](#)

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, Angular, JavaScript, TypeScript, Redux, Zustand, Material UI, Tailwind CSS

**UI / UX:** Responsive Design, Web Performance Optimization, Component-based Architecture

**Testing:** Jest, React Testing Library

**Backend & DB:** Node.js, Express.js, MongoDB, PostgreSQL

**Version Control:** Git, GitHub, GitLab

## FREELANCE

**Freelance Frontend Developer** | *Remote*

Jun 2022 – Present

- Delivered high-quality, responsive frontend solutions for independent clients across various industries, including applications for **Wakeb**, **Grocery**, and **Qias** platforms.

## EDUCATION

**B.Sc. in Computer Science**

*Menoufia University — Menoufia, Egypt*

Sep 2016 – Jul 2020
