## 📄 Professional Summary

Frontend Developer with 3+ years of experience building **production-ready web applications** using **React.js, Next.js, and Angular**. I create **responsive, accessible, and performance-optimized interfaces** that delight users and solve real problems. I collaborate closely with designers, backend engineers, and product teams to turn complex requirements into **intuitive user experiences**. Passionate about **clean code, continuous learning, and delivering products that make a real impact**.

## 📁 Work Experience

### Frontend Developer

Jun 2022 – present | Cairo, Egypt

Dirac Systems ( Subsidiary of Fawry ) 🔗

- Led the development of a new ERP system, starting with the **HR Module (Payday – Fawry Business HR)** and currently on the **Accounting Module**.
- Implemented and maintained **POS systems (Lychee POS)** with a focus on usability and responsiveness.
- Enhanced ERP features and fixed bugs across multiple modules, improving functionality, performance, and security.
- Developed websites, mobile apps, and landing pages, taking projects from concept to deployment.
- Advocated a **mobile-first, user-friendly, and performance-optimized approach** across all projects.
